

ENGANCHES

TODO PARA EL ENGANCHE DE TU AUTOMOVIL

PREMIO A LA EXPORTACIÓN

La Cámara de Comercio de Zaragoza nos concedió en junio de 2012 el Premio a la Exportación en la categoría de mediana empresa. La institución cameral reconoció con esta distinción el trabajo de Enganches Aragón como empresa exportadora de enganches para todo tipo de vehículos, kits de automoción y Towbox a los cinco continentes.

PROGRAMAS DE FORMACIÓN

En Enganches Aragón promovemos programas de formación para talleres e instaladores de enganches y accesorios sobre el montaje y uso de nuestros productos. Pueden informarse llamando al teléfono **976 457 130**.

CATÁLOGO 2013

En nuestro catálogo podrán encontrar información detallada tanto de nuestra empresa como de nuestros productos. Puede solicitarnos gratuitamente catálogos impresos o descargarlo on line desde nuestra página web.

5 AÑOS DE GARANTÍA

Desde este año ofrecemos a nuestros clientes una ampliación de la garantía hasta los 5 años en los enganches fabricados por nuestra empresa. El cliente que instale en su vehículo uno de nuestros enganches deberá pasar por el taller instalador para que allí le sellen la ampliación de garantía del 3º, 4º y 5º año. De esta manera, ayudamos a los talleres a recibir clientes en sus instalaciones y la posibilidad de ofrecerles todos sus productos y servicios personalmente.

NUEVO SERVICIO DE ASISTENCIA TÉCNICA

Este año hemos creado un nuevo servicio de asistencia técnica. Personal altamente cualificado responderá a sus consultas y resolverá sus dudas técnicas en horario de 9.00 a 14.00 y de 15.00 a 20.00 horas de lunes a viernes en el número 638 741 292.

PAGO CON TARJETA

Enganches Aragón facilita a sus clientes el pago con tarjeta de crédito a través de la web www.enganchesaragon.com. El pago con tarjeta de crédito es rápido, cómodo y seguro. Los clientes que escojan el pago con tarjeta podrán ahorrarse las comisiones por reembolso y conseguir crédito en sus respectivas entidades bancarias para posponer el pago 30 días. Los clientes se ahorrarán comisiones por transferencia y podrán pagar de forma rápida y segura.

BOLA FIJA (TIPO A):

Este sistema de bola es el utilizado en la mayoría de nuestros enganches. Se considera fijo, aunque se puede desmontar fácilmente con herramienta manual.

Se trata de un sistema de bola que queda muy bien estéticamente en el vehículo debido a las líneas limpias de su diseño.

Todos los enganches se suministran con cubre-bolas de caucho "Aragón", la tornillería necesaria y un certificado de fabricación.

BOLA EXTRAÍBLE HORIZONTAL (TIPO F):

» Estética mejorada.

- » El enganche se desmonta en segundos sin ningún tipo de herramienta.
- » Su menor volumen evita realizar muchos recortes en paragolpes.
- » Facilidad a la hora de montaje y desmontaje de la bola.
- » Doble sistema de seguridad.
- » Cerradura de seguridad incluida.

Todos los enganches extraíbles horizontales son suministrados con cerradura de seguridad, cubre-bolas, tapón de seguridad, guantes y bolsa de transporte "Aragón".

BOLA EXTRAÍBLE VERTICAL (TIPO SV):

Modelo de enganche cuya extracción vertical hace que, una vez desmontado, no se vea prácticamente nada en el vehículo manteniendo así una perfecta estética. La conexión eléctrica también permanece oculta tras el paragolpes una vez desmontado el cabezal.

- » Estética mejorada mediante soldadura por fricción.
- » La bola extraíble se encaja desde abajo.
- » El gancho de remolque es prácticamente invisible cuando la bola está quitada.
- » Colocación de la bola sin ningún esfuerzo.
- » Bloqueo automático.
- » Cerradura antirrobo.
- » Sin posiciones parcialmente cerradas.
- » Suministrado con llave, tapón protector y bolsa de transporte "Aragón".

Con cada enganche extraíble vertical se suministra una bolsa de transporte para guardar la bola cómodamente en el maletero, unos útiles guantes para evitar las manchas de grasa, una cerradura antirrobo, un cubre-bolas y un tapón protector.

BOLA EXTRAÍBLE VERTICAL ARAGÓN-MATIC V2 (TIPO AM2):

Modelo de enganche extraíble que, a pesar de mantener el nombre, es en realidad un enganche completamente nuevo.

Hemos integrado la llave dentro del mismo núcleo y se ha rediseñado por completo este último para mejorar la estética del producto.

Asimismo, se ha rediseñado toda la parte mecánica para optimizar la manejabilidad del enganche.

Su extracción vertical hace que, una vez desmontado, no se vea el enganche en el vehículo y se mantenga una perfecta estética.

La conexión eléctrica también permanece oculta tras el paragolpes una vez desmontado el cabezal.

- » La bola extraíble se encaja desde abajo.
- » El gancho de remolque es prácticamente invisible cuando la bola está guitada.
- » No existen recortes visibles en el paragolpes.
- » Colocación de la bola sin ningún esfuerzo.
- » Bloqueo automático.
- » Cerradura antirrobo insertada en el núcleo.
- » Sin posiciones parcialmente cerradas.

Con cada enganche extraíble vertical se suministra una bolsa de transporte para guardar la bola cómodamente en el maletero, unos útiles guantes para evitar manchas de grasa, una cerradura antirrobo, un cubre-bolas y un tapón protector.

"ARAGÓN" (TIPO A):

La mayoría de nuestros enganches está fabricado con este tipo de bola, que se considera fija, aunque puede desmontarse con ayuda de herramienta manual.

BULÓN-BOLA ARAGÓN (TIPO G):

Fabricado y desarrollado por Enganches Aragón. Homologación según Directiva 94/20 CE. Valor "D": 17 kN

Valor "S": 250 kg.

Capacidad máxima de arrastre: 3500 kg

EXTRAÍBLE ARAGÓN (TIPO F):

Enganche desmontable en segundos sin ningún tipo de herramienta. Incluye sistema antirrobo.

EXTRAÍBLE AUTOMÁTICO VERTICAL (TIPO SV):

La bola extraíble se encaja desde abajo. Estética mejorada.

El gancho de remolque es prácticamente invisible cuando la bola está quitada. Bloqueo automático.

TIPO PLACA (TIPO C):

Modelo de enganche que, por sus características, se suele utilizar en vehículos comerciales y 4x4. Puede desmontarse, pero siempre con ayuda de herramienta manual.

BOLA EXTRAÍBLE AUTOMÁTICA VERTICAL ARAGÓN- MATIC V2 (TIPO AM2):

La bola extraíble se encaja desde abajo. Estética mejorada.

El gancho de remolque es prácticamente invisible cuando la bola está quitada. Bloqueo automático.

EXTRAÍBLE AUTOMÁTICO HORIZONTAL (TIPO SH):

Enganche de extracción horizontal completamente automática. Se trata de un robusto dispositivo utilizado sobre todo en vehículos 4x4.

Cerradura antirrobo. Control óptico de bloqueo.

MODELO PATENTADO

Enganches Aragón ha sido pion<mark>era en e</mark>l desarrollo, fabricación y comercialización de kits eléctricos universales.

Después de comercializar nuestro KIT ARAGÓN-500 en más de 30 países, el año pasado se desarrolló una evolución de este producto mejorando así su funcionalidad y manteniendo su calidad y fiabilidad.

Principales diferencias entre ARAGÓN-500 y ARAGÓN-501:

- » Conexiones rápidas en el módulo electrónico con la correspondiente mejora de tiempos de montaje.
- » Posibilidad de desconexión de los PDC (sensores de párking) (Excepto ARAGÓN-501 MINI).
- » Sistema C2: Detecta el mal funcionamiento de los intermitentes y las luces de nuestro remolque avisando mediante una señal acústica. (Excepto ARAGÓN-501 MINI).
- » Canal adicional para vehículos con antiniebla activado por masa.
- » Función sustitutiva de la luz de intermitencia por la luz de posición en caso de fallo de lámparas.
- » Desconexión de las luces antiniebla traseras del vehículo (vehículos con uno o dos antinieblas) (Excepto ARAGÓN-501 MINI).
- » Compatible con remolques o caravanas con uno o dos antinieblas.

Existen tres versiones: ARAGÓN 501- MINI 7 polos, ARAGÓN-501- MAXI 7 polos y ARAGÓN 501- Maxi 13 polos.

CARACTERÍSTICAS:

- » Disponible para usar sólo en vehículos con masa negativa y tensión de batería de 12 V.
- » Válido para los vehículos equipados con sistemas de:
 - » Luz de avería multiplexada.
 - » Sistema de luces con voltaje mixto (PWM) (Doble función por el mismo cable).
 - » Sistema de luces bajo voltaje.
 - » CAN-BUS.
 - » Sistema de luz sustitutiva.
- » Asegura que a cada piloto llegue la intensidad adecuada.
- » Protege el vehículo en caso de cortocircuito o mal funcionamiento de las luces del remolque.
- » Evita averías en las centralitas electrónicas.
- » Posibilita el funcionamiento del sistema de aviso de fallos en lámparas (Check-control).
- » Posibilidad de funcionamiento a 24V.

Conscientes de la continua evolución tecnológica de la industria del automóvil, Enganches ARAGÓN pone a su disposición la gama de kits eléctricos específicos más amplia del mercado. Los kits específicos incluyen cableados, conectores, componentes y centralitas que garantizan el correcto funcionamiento del alumbrado del remolque y de todas las funciones de seguridad y confort asociadas al mismo.

- » Garantía de accesorio original: Los kits específicos que encontrará en nuestro catálogo son los mismos que puede encontrar en un servicio oficial. Han sido diseñados en estrecha colaboración con el fabricante del vehículo, respetando escrupulosamente los exigentes requerimientos de calidad y seguridad.
- » Facilidad de Montaje y Servico Técnico: La gran mayoría de nuestros kits específicos incorporan conectores originales y manuales de instrucciones con pictogramas paso a paso para una instalación fácil y rápida. Además, nuestro equipo de asistencia técnica le resolverá cualquier duda que le pueda surgir antes, durante y después del montaje.

Con la instalación de **kits eléctricos con tecnología digital CAN-Bus**, se abre todo un abanico de posibilidades de seguridad y confort que debemos tener en cuenta a la hora de arrastrar un remolque o caravana: Adecuación de los sistemas de seguridad activa ESP y ABS a las nuevas condiciones de conducción (Activación del TSP = Trailer Stability Program), desconexión automática de los sistemas de ahorro de combustible (Start&Stop), de los sensores de cambio de carril, de los sensores de aparcamiento, etc.

La lista de kits eléctricos específicos adaptados para cada vehículo está especificada en la tarifa que aparece a partir de la página 43 de este catálogo.

TESTER Y COMPROBADORES

ALD0002

Maletín comprobador 7/13 P + C2.

- Comprueba instalaciones de 13 polos (Intermitencias, luces de posición, stop, antiniebla, marcha atrás y señaliza las conexiones de batería +30 v +15).
- -Váli<mark>do también p</mark>ara instalaciones de 7 polos. (I n<mark>cluye mini adaptador de 7 a 13 polos).</mark>
- -Interruptor para provocar fallo de intermitencia. (Control C-2 sistema de aviso de fallo de lámparas en el vehículo)*

*Dependiendo de qué instalación se coloque en el vehículo y de qué vehículo se trate, al provocar el fallo en la intermitencia se puede doblar la frecuencia del intermitente, se puede oír un zumbido o bien se puede indicar fallo en el cuadro.

Este comprobador realiza el consumo como si se tratase de un remolque ya que incorpora lámparas y no leds, evitando así posibles confusiones, ya que con algunos comprobadores de leds al no haber consumo pude indicar que todo funciona correctamente y al conectar un remolque dar fallo en el vehículo.

165.00 €

EQUIPAMIENTO DE TALLER ESPECIALISTA Y HERRAMIENTA

HT00001

Elevador de montaje rápido. El único con dos sistemas de seguridad, mecánico e hidráulico. Peso máximo del vehículo: 2500 kg. Altura máxima de elevación: 650 mm. Elevación con cilindro hidráulico para obtener una salida y una bajada progresiva y suave. Medidas plegado: 1620 x 400 x 143 mm.

CLAVES DE LOS KITS ELÉCTRICOS EN LA TARIFA

Conscientes de las dudas que surgen a la hora de elegir el kit eléctrico más adecuado en este catálogo hemos incluido algunas claves que le serán de utilidad a la hora de escoger la mejor opción. En la columna de la tarifa podrá encontrar las siguientes abreviaturas:

EE: Electricidad Estándar

Kits válidos para vehículos con un cableado tradicional, sin sistemas de control ni aviso de fallo de lámparas. Es posible derivar directamente la corriente desde los pilotos.

Cent: Centralita eléctrica analógica

Adecuados para aquellos vehículos que incorporan un sistema de control de luces o limitación de potencia de las mismas. Necesitamos un kit eléctrico con centralita eléctrica analógica que amplifique la señal de salida para nuestro remolque sin extraerla de los pilotos.

CAN: Red digital CAN-Bus

Además del correcto alumbrado para nuestro remolque o caravana, los kits eléctricos con tecnología digital CAN-Bus permiten que el vehículo tractor se adapte automáticamente a las nuevas condiciones de conducción que supone arrastrar un remolque. Una vez conectado el remolque a la base del enganche, la Unidad Central del vehículo cambiará automáticamente los parámetros de tracción, suspensión, frenado,... Estos kits permiten funciones adicionales como el aviso de fallo de lámpara del remolque, la desconexión automática de los sensores de aparcamiento y otras muchas ventajas.

Pre: Preinstalación de remolque

Hay vehículos que incorporan una preinstalación de serie que permite conectar directamente el kit eléctrico. Al realizar la conexión en la preinstalación, el tiempo de montaje es muy reducido y se garantiza el funcionamiento de todos los sistemas asociados al remolcado.

FdM: Fácil de montar

El kit incorpora componentes e instrucciones de montaje que permiten una instalación sencilla.

Bas: Básico

Kit eléctrico sin centralita. Se conecta al cableado del vehículo mediante derivadores.

Univ: Universal

Kit compatible con la inmensa mayoría de los vehículos del mercado. Se conecta al cableado del vehículo mediante derivadores.

Orig: Conectores originales

El Kit incorpora los conectores originales del vehículo para una óptima conexión y un reducido tiempo de montaje.

P&P: Plug & Play (conectar y listo)

Kit digital CAN-Bus en el que tanto las funciones básicas de alumbrado como las funciones extra descritas anteriormente se activan automáticamente una vez realizada la instalación. No es necesaria reprogramación de ningún tipo.

Opci: Activación opcional

Kits vía CAN cuyas funciones de alumbrado (luz de posición, intermitencia, freno, etc) están activadas de serie. Las funciones adicionales como la desconexión de los sensores, el aviso de fallo de lámparas, la activación del TSP,... pueden activarse con una máguina de diagnosis a través del OBD.

Act!: Requiere activación

Atención, este kit debe ser activado mediante una máquina de diagnosis adecuada en el servicio oficial.

Prot: Cables protegidos

El kit incorpora un cableado con protección especial y longitud adicional para poder realizar la instalación por los bajos del vehículo. Este tipo de kits están especialmente indicados para autocaravanas, camionetas pick-up, vehículos comerciales con caja cerrada, chasis-cabina, etc. para cada vehículo y usuario,

A contin<mark>uación, les m</mark>ostramos los enganches <mark>qu</mark>e se fabricaban hasta ah<mark>ora</mark> bajo <u>**Reforma de Importancia**</u> <u>**Generalizada**</u>.

En el momento de la impresión de este catálogo la única opción posible para la homologación de estos enganches es la realización de un *proyecto técnico* unitario para cada enganche.

Les iremos informando puntualmente si se producen novedades al respecto.

Mientras tanto, pueden consultar con nuestro departamento comercial para más información en el teléfono **976 457 130**.

TOWBOX® es un producto multifuncional pensado para el transporte de equipaje, bicicletas, perros, animales de compañía, carritos de bebé, sillas de ruedas, etc.

El Towbox va colocado sobre la bola de enganche, no limita la velocidad del vehículo, no necesita pasar ITV y puede ser colocado por una sola persona en segundos.

Después de miles de unidades vendidas, algunos de nuestros clientes nos han solicitado un Towbox con mayor capacidad de carga.

Así ha nacido el TOWBOX® V2 un nuevo producto con mejoras estéticas, funcionales y con mayor capacidad de carga.

Seguiremos comercializando los dos productos, con el único objetivo de atender mejor a nuestros clientes y sus necesidades.

CARACTERÍSTICAS ADICIONALES TOWBOX® V2

- » Puertas que se abren por los laterales para un fácil y cómodo acceso a la carga desde ambos lados.
- » Completamente montado.
- » Incluye ruedas abatibles regulables en altura.

- » Incluye separador central para evitar desplazamientos laterales de la carga y suelo desmontable.
- » Arcón equipado con dos cierres con llave.

La solución definitiva a sus problemas de transporte

CARACTERÍSTICAS GENERALES TOWBOX®

- » Anclado a la bola de enganche.
- » Adaptable a la mayoría de enganches del mercado.
- » Al ir protegido del viento, se evitan molestos ruidos y se logra ahorrar combustible.
- » Impecable estética y funcionalidad.
- » Construido en polietileno de media densidad asegura una altísima resistencia a golpes y corrosión.
- » No limita la velocidad del vehículo.
- » Colocación por una sola persona en segundos con un solo movimiento.
- » Seguro antirrobo incorporado.

- » Sistema de ruedas abatibles para una fácil colocación sobre la bola.
- » Sistema deslizante y abatible para un cómodo acceso al maletero del vehículo.
- » Al no aumentar la altura del vehículo permite el acceso a garajes sin problema.
- » Arcón equipado con dos cierres con llave.
- » Volumen: 280 litros (V1) y 390 litros (V2)
- » Instalación eléctrica incluida (13 polos). (Adaptador de 13/7 polos incluido).

- Carga útil de 41 a 54 kg. (en función del modelo).
 (Consultar legislación vigente y limitaciones de la carga vertical máxima
- » Pilotos con marcha atrás y antiniebla.
- » Orificios de desagüe para una fácil limpieza.
- » Homologado como unidad técnica independiente.
- » No es necesario pasar ITV.

admisible del enganche).

- » Cumple la normativa de Tráfico.
- » Homologación CE.

La solución definitiva a sus problemas de transporte

TOWBOX® y TOWBOX® V2 están configurados con tres posiciones diferentes:

POSICIÓN 1 DE COLOCACIÓN:

Posición utilizada para colocar el dispositivo sobre la bola de enganche de manera cómoda y sencilla. Una vez anclado a la bola, podemos pasar a la posición de marcha mediante un simple movimiento.

POSICIÓN 2 DE MARCHA:

Posición que utilizaremos para la marcha normal. La carga se aproxima a la vertical de la bola por lo que el centro de gravedad se aproxima al vehículo, aumentando así la seguridad. Según legislación vigente, la carga no puede sobresalir de la planta del vehículo más del 15% de su longitud total, esta posición de marcha ayuda a que se pueda llevar el dispositivo en una mayor gama de vehículos.

POSICIÓN 3 ABATIBLE:

Posición que sirve para poder acceder más cómodamente al maletero de vehículos con el portón trasero abatible como monovolúmenes o todoterrenos.

La colocación en el vehículo la puede hacer una sola persona en unos segundos, sin esfuerzo y de una manera muy cómoda y sencilla gracias al bastidor con ruedas con que van equipados TOWBOX® y el TOWBOX® V2.

Además, también sirve para llevar nuestros TOWBOX® o TOWBOX® V2 hasta donde queramos guardarlo: trasteros, garajes o incluso en nuestra casa. (Esta operación sólo se puede realizar con el arcón en vacío, sin carga).

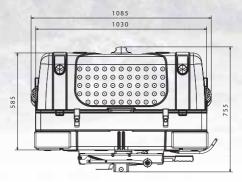

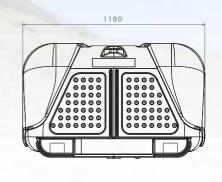

PESOS Y DIMENSIONES

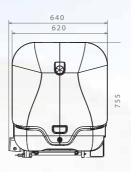

TOWBOX®

TOWBOX® V2

| | VOLUMEN (LITROS) | PESO EN VACÍO | CARGA ÚTIL | Kg. |
|----------------|------------------|---------------|------------|--------|
| TOWBOX® V2 | 390 L | 34 kg. | 41 kg. | 75 kg. |
| TOWBOX® DOG V2 | 390 L | 34 kg. | 41 kg. | 75 kg. |
| TOWBOX® | 280 L | 25 kg. | 50 kg. | 75 kg. |
| TOWBOX® DOG | 280 L | 25 kg. | 50 kg. | 75 kg. |
| TOWBOX® CARGO | | 24 kg. | 51 kg. | 75 kg. |
| TOWBOX® CICLOS | | 21 kg. | 54 kg. | 75 kg. |

Nota: La carga útil del TOWBOX® DOG se verá reducida en función de los accesorios que se coloquen. Asimismo, el producto está homologado para las cargas indicadas en esta tabla pero siempre habrá que tener en cuenta la máxima carga vertical admisible del enganche del vehículo.

TOWBOX® V2 Transporte de carga

TOWBOX® V2 es la solución ideal para aumentar el volumen de carga de su vehículo. Aporta muchas ventajas respecto a los portaequipajes tradicionales.

Puertas laterales para una mayor boca de carga

Detalle de sujeción V20

Es obligatoria la señalización de carga saliente mediante la placa V20 (Solo para España)

Cerraduras integradas. Cabezal con cerradura de seguridad

Incluye suelo desmontable

| REF | ARTÍCULO | PVP [*] |
|---------|------------|---------|
| T2X000C | TOWBOX® V2 | 699,00 |

Incluye separador central para Detalle de asa evitar esplazamientos laterales Asa integrada para el de la carga

transporte

Nuevo doble sistema de bloqueo

TOWBOX® V2 DOG

Transporte de animales

La manera más práctica, sencilla, limpia y cómoda de transportar sus perros. TOWBOX® V2 DOG tiene un certificado veterinario que lo hace idóneo para el transporte de animales.

Sus perros viajarán cómodos y usted preservará el interior de su vehículo de olores y posibles daños como arañazos, manchas o mordiscos.

TOWBOX® V2 DOG está equipado con un separador central y con suelo desmontables.

Los soportes de la placa V20 están diseñados para que esta quede separada del arcón y permita una correcta ventilación de los animales. Incluye separador central para poder transportar los animales de manera independiente. Incluye orificios de desagüe para una fácil limpieza.

Dotado de canales de recogida de orines para que los animales estén siempre limpios y secos.

Amplia boca de entrada para facilitar la entrada de los animales.

También disponible en verde bicolor para la versión TOWBOX® DOG V2 Hunter.

Orificios de ventilación.

La solución definitiva a sus problemas de transporte

MULTIFUNCIONALIDAD

TOWBOX® CARGO es una plataforma multifuncional anclada sobre la bola de enganche para cargar todo tipo de material. Podrá transportar con comodidad carritos de bebé, sillas de ruedas, maletas, etc. Es su mejor aliado para cargas voluminosas.

Asimismo, evitará manchar su vehículo al transportar objetos sucios o mojados.

Medidas de la cesta: 1.080 x 580 x 125 mm.

MULTIFUNCIONALIDAD. Si usted dispone ya de un TOWBOX® o un TOWBOX® DOG podrá convertirlo en TOWBOX® CARGO simplemente adquiriendo la cesta metálica para carga junto con el soporte vertical y la placa de pilotos.

| REF | ARTÍCULO | PVP [*] |
|---------|---------------|---------|
| TBC0000 | TOWBOX® CARGO | 390,00 |

TOWBOX® CICLOS

MULTIFUNCIONALIDAD

TOWBOX® CICLOS es una plataforma multifuncional anclada sobre la bola de enganche para cargar hasta tres bicicletas con total comodidad.

Podrá acceder a todos los garajes sin problema de altura. Sistema deslizante y abatible para poder acceder al maletero sin necesidad de desmontar las bicicletas.

MULTIFUNCIONALIDAD. Si usted dispone ya de un TOWBOX® o un TOWBOX® DOG podrá convertirlo en TOWBOX® CICLOS simplemente adquiriendo el kit de bicicletas y la placa de pilotos.

PORTAESQUIPAJES flexibles

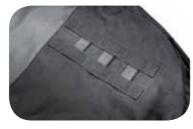

HANDY HOLDALL

El HANDY HOLDALL no es un portaequipajes más. Se trata de un portaequipajes plegable, increíblemente ligero y de fácil montaje.

Se puede instalar tanto en las barras tradicionales de techo como en nuestro sistema hinchable HANDY RACK.

Fabricado con materiales de alta calidad, fuerte y resistente al agua es la solución ideal casi para cualquier coche.

- » 280 litros de capacidad
- » Totalmente portátil con sólo 4 kg de peso
- » Capacidad de carga de 50 kg
- » Dimensiones (plegado): 56x22x22 cms
- » Dimensiones (desplegado): 110x75x25/40 cms
- » Parte inferior reforzado con largueros de fibra de vidrio
- » Se puede guardar en el maletero del coche
- » Agarraderas para un fácil montaje
- » Perfecto para hogares con más de un vehículo
- » Combinable con HANDY RACK

| REF | ARTÍCULO | PVP [*] |
|---------|---------------|---------|
| AVG0005 | HANDY HOLDALL | 84,90 |

BARRAS PORTAEQUIPAJES hinchables

HANDY RACK

La solución perfecta para el transporte de todo tipo de material voluminoso. Muebles, tablas de surf, canoas, objetos largos, etc.

Las barras HANDY RACK se acoplan a todo tipo de vehículos (salvo los de techo no rígido y vehículos con 3 puertas sin posibilidad de bajar las ventanillas traseras). Debido a su reducido tamaño podrá llevar en su maletero siempre sus HANDY RACK.

Muy útil para vehículos deportivos, clásicos o coches para los que no haya barras en el mercado.

- » 2 barras hinchables con 5 anillas de anclaje cada una
- » Bomba de alta capacidad y doble acción
- » Capa exterior de nylon de alta resistencia
- » Cámara interior de PVC estanco de alta elasticidad
- » Dimensiones desinflado en la caja: 18x39x15 cms
- » Dimensiones de cada tubo (hinchado): 146x33x10 cms
- » Costuras de nylon manufacturadas por un fabricante de material de alta montaña
- » Peso: 2,5 kg
- » Carga máxima: 80 kg
- » Incluye bolsa de transporte, bomba de hinchado, 2 cintas de amarre, 2 barras hinchables
- » Combinable con HANDY HOLDALL

SOLUCIONES PARA VEHÍCULOS INDUSTRIALES NORDRIVE

Nordrive es una marca especializada en soluciones para vehículos industriales. La línea profesional Kargo-System es sinónimo de seguridad, robustez, versatilidad, funcionalidad y elegancia. El sistema Kargo-System cuenta con dos versiones de barras (en acero y en aluminio) para combinar y una serie de kits de fijación, específicos para cada modelo de vehículo con puntos de anclaje de serie y para los vehículos con vierteaguas

KARGO (Acero)

- » Las barras son de acero galvanizado con revestimiento de PVC.
- » Cada caja contiene seis piezas.
- » Cada barra soporta 50 kg de peso.

| REFERENCIA | ARTÍCULO | PVP [*] |
|------------|-------------------------------|---------|
| N10005 | BARRA DE ACERO KARGO (135 CM) | 16,50 |
| N10010 | BARRA DE ACERO KARGO (150 CM) | 18,50 |
| N10015 | BARRA DE ACERO KARGO (180 CM) | 21,50 |

SUJETACARGA K-1 (UN PAR)

- » Se desliza a lo largo de la barra y se coloca sin necesidad de usar herramientas. Mantiene en posición fija escaleras, mesas y otras cargas poco voluminosas.
- » Se puede fijar a las barras con llave fija cuando se transporta la misma carga o utilizando el cierre manual cuando la carga cambia.
- » Altura 11 centímetros

| REFERENCIA | ARTÍCULO | PVP [*] |
|------------|----------------------------------|---------|
| N11001 | SUJETACARGA K-1. ALTURA: 11 CMS. | 20,00 |

SUJETACARGA K-2 (UN PAR)

- » Se desliza a lo largo de la barra y se coloca sin necesidad de usar herramientas. Mantiene en posición fija escaleras, mesas y otras cargas poco voluminosas.
- » Se puede fijar a las barras con llave fija cuando se transporta la misma carga o utilizando el cierre manual cuando la carga es variable.
- » Altura 23 centímetros.

| REFERENCIA | ARTÍCULO | PVP [*] |
|------------|----------------------------------|---------|
| N11002 | SUJETACARGA K-2. ALTURA: 23 CMS. | 35,00 |

RODILLO TRASERO

- » De metal con revestimiento de plástico.
- » Facilita la carga y descarga de objetos largos.

ALERÓN AERO KARGO NEGRO

- » Kit deflector para barras de la serie Kargo.
- » Mejora la aerodinámica del vehículo.
- » Reduce el consumo de combustible
- » Evita ruidos molestos durante la conducción.
- » Aluminio.
- » Flexible, para adaptarse a la curvatura del vehículo.
- » Inclinación regulable a cualquier vehículo.

| REFERENCIA | ARTÍCULO | PVP [*] |
|------------|---|---------|
| N11053 | ALERÓN AERO KARGO NEGRO K-9 L-95 CMS. | 60,00 |
| N11054 | AL FRÓN AFRO KARGO NEGRO K-11 L-110 CMS | 70.00 |

» Barra de aluminio con tres posiciones para facilitar la inserción de los accesorios mediante los conectores en "T". La posición lateral incluye un perfil de goma antideslizante que actúa como soporte para la carga transportada. También la posición trasera está pensada para los anillos de anclaje y el kit del rodillo. En la posición delantera, en cambio, se puede sujetar el alerón aerodinámico Aero Kargo.

ALUMINIO

VEHÍCULOS CON PUNTO DE ANCLAJE DE SERIE

- » Kit de barras más puntos de fijación para vehículos con puntos de anclaje de serie
- » Los kits de anclaje utilizan los puntos de anclaje de serie que lleva cada vehículo y están formados por soportes específicos, que sostienen las bases de fijación de la barra. Son funcionales y fáciles de instalar. Llevan cerradura de seguridad.

Recomendaciones

- No superar nunca la carga máxima indicada en las instrucciones de montaje. Este límite está condicionado a la carga máxima indicada en el libro de instrucciones y mantenimiento del vehículo. Usted debe seguir siempre las indicaciones de carga máxima más bajas.
- Por carga máxima se entiende: el peso de las barras + el peso de los accesorios + el peso de la carga transportada.

(Ver tabla adjunta para consultar marca y modelo del vehículo)

VEHÍCULOS CON VIERTEAGUAS

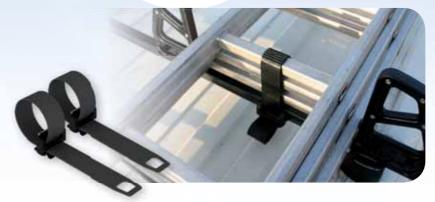

- » Kit de fijación para vehículos con vierteaguas
- » Adaptados para las barras Kargo y Kargo Plus
- » La caja contiene dos fijaciones para el montaje de una barra.

| REFERENCIA | ARTÍCULO | PVP [*] |
|------------|------------------------------------|---------|
| N30310 | KIT DE FIJACIÓN. ALTURA 16-21 CMS. | 53,00 |
